12.10.2016 11:44

By the **decision** of the Chairman of the Chamber of Advocates of the Republic of Armenia from **11.10.2016 №428-A/KG-16210** a disciplinary proceedings has been evoked against advocate **Garik Galikyan** for publicly speaking out to the participant of the “Half open windows” TV program translated by “ATV” television channel the phrase : “.. Let your womb dry...”, in order to check the behavior from the sense of that very behavior being appropriate in its professional purport and formation of respect towards its social rank.

At the same time, we have to notice, that the evoke of the disciplinary proceedings **doesn't mean by itself that the advocate made a disciplinary violation and the final answer to that question can be given only in the result of the disciplinary proceedings' realization: by the appropriate decision of the Council of the Chamber of Advocates.**
