

THE MESSAGE OF THE CHAIRMAN OF THE CHAMBER OF ADVOCATES OF THE RA ARA ZOHRABYAN REGARDING THE ANTICORRUPTION DAY

09.12.2014 18:41

Dear colleagues

Today the anticorruption day is celebrated in all countries of the world. It is difficult to point a country where the corruption is absent , but we the representatives of civic public and all the others who consider themselves the member of united team should struggle against that defect, it undermines the very foundations of the state and becomes the star of evil and illegality.

We the advocates should avoid entering the corruption risks. The Chamber of Advocates declared a war against the advocates connected with corruption cases. Our activities should be consistent and the victory will guide us.
